ENFORCEMENT AGENCY

APPROVAL  
12-14-78

## FINDINGS

(1) This facility is an existing 10 acre Class II landfill site; site life is expected to be 20 years. The area method of operation is utilized. The facility is located approximately 1 mile southwest of Furnace Creek Ranch off State Hwy 190. The disposal site receives an average of 50 cubic yards per day. There is no salvaging operation occurring at the site. The site is operating 6 hours on an operating day. The operation runs 7 days per week from November thru April and 2 days per week the rest of the year. Types of waste received: (a) residential (b) commercial.

(2) Design and operation of this facility are as specified by the information received dated August 3, 1977 and August 15, 1978.

(3) Land within 1,000 feet of the site is zoned O.S. (Open Space).

(4) This facility's design and operation are in compliance with State Minimum Standards as determined by a physical inspection made on November 2, 1978.

(5) This permit is consistent with the Inyo County Solid Waste Management Plan and with the Standards adopted by the State Solid Waste Management Board.

(6) The following document presently conditions the operation of this facility: California Regional Water Quality Control Board, Lahontan Region; Waste Discharge Requirements No. 6-72-18.

## CONDITIONS:

## Requirements:

- (1) This facility must comply with State Minimum Standards for Solid Waste Handling and Disposal.
- (2) This facility must comply with all federal and state requirements and enactments.
- (3) Additional information concerning the design and operation of this facility must be furnished upon request of the enforcement agency.

## Prohibitions:

- (1) Burning of wastes.
- (2) Disposal of hazardous wastes.
- (3) Disposal of septic tank dumpings.
- (4) Disposal of oily wastes.

This permit is granted solely to the operator named above, and is not transferable. Upon a change of operator, this permit is subject to revocation. Upon a significant change in design or operation from that described in this permit or in attachments thereto for the existing design and operation of a facility operating immediately prior to August 15, 1977, or from the approved intended design and operation of a facility which was not operating prior to August 15, 1977, or which herein is granted a permit modification, this permit is subject to revocation, suspension, modification or other appropriate action.

This permit does not authorize the operation of any facility contrary to the State Minimum Standards for Solid Waste Handling and Disposal. This permit cannot be considered as permission to violate existing laws, ordinances, regulations, or statutes of other government agencies.

SSWMB APPROVAL

ENFORCEMENT AGENCY  
APPROVALSpecifications:

(1) No significant change in design or operation from that described in Item #1 and #2 of the "Findings" section is allowed, except for those changes which are required under the "Conditions" portion of this permit.

Provisions:

\* This permit is subject to review by the enforcement agency and may be suspended, revoked or modified at any time for sufficient cause.

Self Monitoring Programs:

The following items shall be monitored by the operator of this facility or his agent. Records including but not limited to these items shall be kept and made available to the enforcement agency upon request:

- (1) Weights or volumes of wastes received at approximately 90% accuracy.
- (2) A log of fires, earth slides, settlements, injury, property damage, accidents, explosions or unauthorized discharges.
- (3) A map record showing the exact location of any subsurface cuts where fill has been placed, cover material mined, or where area fill has been placed on natural soil. The record shall be updated quarterly.

This permit is granted solely to the operator named above, and is not transferable. Upon a change of operator, this permit is subject to revocation. Upon a significant change in design or operation from that described in this permit or in attachments thereto for the existing design and operation of a facility operating immediately prior to August 15, 1977, or from the approved intended design and operation of a facility which was not operating prior to August 15, 1977, or which herein is granted a permit modification, this permit is subject to revocation, suspension, modification or other appropriate action.

This permit does not authorize the operation of any facility contrary to the State Minimum Standards for Solid Waste Handling and Disposal. This permit cannot be considered as permission to violate existing laws, ordinances, regulations, or statutes of other government agencies.
